

Journal title	Publisher	Type of journal	Journal policy regarding self-archiving	Version which may be uploaded to institutional repository	Link(s) to policy	Links(s) to journal	ESSN (online)	ISSN (print)
Acta Horticulturae	International Society for Horticultural Science (ISHS)	Subscription	An author may self-archive an author-created version of his/her article on his/her own website. He/she may also deposit that version on his/her institution's and funder's (funder-designated) repository at the funder's request or as a result of a legal obligation, including his/her final version, provided it is not made publicly available until after 12 months of official publication. He/she may not use the publisher's PDF version which is posted on www.actahort.org for the purpose of self-archiving or deposit.	Author can archive post-print 12 months after publication	http://www.ishs.org/authors	http://www.actahort.org/index.htm		0567-7572
Biodiversity and Conservation	Springer	Subscription	Authors may self-archive the author's accepted manuscript of their articles on their own websites. Authors may also deposit this version of the article in any repository, provided it is only made publicly available 12 months after official publication or later. He/she may not use the publisher's version (the final article), which is posted on SpringerLink and other Springer websites, for the purpose of self-archiving or deposit.	Author can archive post-print (12 month embargo after publication date)	http://www.sherpa.ac.uk/romeo/se-arch.php?issn=0960-3115	http://link.springer.com/journal/10531	1572-9710	0960-3115
Biological Conservation	Elsevier	Subscription	Elsevier believes that individual authors should be able to distribute their AAMs for their personal voluntary needs and interests, e.g. posting to their websites or their institution's repository, e-mailing to colleagues. However, our policies differ regarding the systematic aggregation or distribution of AAMs to ensure the sustainability of the journals to which AAMs are submitted. Therefore, deposit in, or posting to, subject-oriented or centralized repositories (such as PubMed Central), or institutional repositories with systematic posting mandates is permitted only under specific agreements between Elsevier and the repository, agency or institution, and only consistent with the publisher's policies concerning such repositories.	Author can archive post-print (24 month embargo after publication date)	http://www.sherpa.ac.uk/romeo/se-arch.php?issn=0006-3207	http://www.journals.elsevier.com/biological-conservation/		0006-3207
