Note: Depending on your permission to access Web of Science™ and Web of Science™ Core Collection, you will have one or more of the following options:
Option 1:
WEB OF SCIENCE™
Search Web of Science
Use this option to search Web of Science. Depending on your subscription, this can include articles, books, patents, and more.
Search Web of Science Core Collection
Use this option to search Web of Science Core Collection. Depending on your subscription, this includes the world's leading scholarly literature in the sciences, social sciences, arts, and humanities and proceedings of international conferences, symposia, seminars, colloquia, workshops, and conventions.
Search Web of Science Core Collection Distinct Author Sets
Use this option to search Web of Science Core Collection for sets of articles written by the same person.
Option 2:
ENDNOTE™
Go to EndNote
Use your EndNote account to add articles and manage your ResearcherID publication lists.
Already use EndNote? You can transfer your ResearcherID publication lists between the desktop and web effortlessly. Learn about the additional features available in EndNote to accelerate your research including find full text automatically and access to over 3,700 publishing styles.
Search Online Resources using EndNote
With EndNote, you can collect references from online resources including PubMed and more.

Search Tips

You can find researchers who have registered with ResearcherID.

To search for a researcher, enter their name. For a first name, try entering either just an initial or the entire first name. Check the "other names" checkbox to search the Other Names field for either the last name or first name search terms.

Use the wildcard character * at the end of a word to find matches with any ending (for example, Penn*).

Or, if you know it, you can enter just the researcher's ResearcherID.
